Hair Care

Shampoo is used by applying it to wet hair, massaging the product into the hair, and then rinsing it out. Some users may follow a shampooing with the use of hair conditioner. The goal of using shampoo is to remove the unwanted build-up in the hair without stripping out so much sebum as to make hair unmanageable.

Specialty shampoos are available for people with dandruff, color-treated hair, gluten or wheat allergies, an interest in using an "all-natural", "organic", "botanical" or "plant-derived" product, and infants and young children ("baby shampoo" is less irritating).

Herbal Shampoo

Manages various elements blocking the scalp and pores that induces hair cleanliness. Cares for damaged hair texture in order to maintain elastic hair. Keeps hair clean with avocado and aloe vera plant-based ingredients and removes wastes and contaminants.

Member price: \$15.75
